YOU LIKE IT HOT YOUR ENGINE DOES NOT!

Cold High Pressure Air = Power
Peak performance and mileage doesn't happen when your engine is forced to inhale hot, dead air. It happens when you have streamlined air flow and high density. Banks Ram-Air intake feeds your engine all the cool air it craves and more.

NEW 2018 Ram
5.0L/3.0L/6.7L/6.9L

Banks Cold Air Intakes:

- Enclosed housing keeps out hot, power-robbing engine air
- Inhales cool, fresh outside air for more power & MPG
- Giant reusable filter maximizes high-flow filtration
- Beats stock and the competition

ALSO AVAILABLE FOR GAS/DIESEL CHEVY/GMC, FORD, DODGE/RAM, TOYOTA, NISSAN, JEEP, MOTORHOME
